

Indigenous Peoples' Participation in the ASM3 Process—Contributions to Arctic Science and Research.

Description of Webinar

(DRAFT) This webinar brings together a panel of Indigenous Leaders to discuss the upcoming Arctic Science Ministerial. They will discuss the importance of inclusion of the knowledge of Indigenous peoples in Arctic science and research and the important role this has on sustainability. They will provide a background of previous efforts and share their insights around the question “Why is it important for Indigenous Peoples to be involved in Arctic science and research?” Please join the panel to learn about how a holistic approach to Arctic Science builds equity and cooperation in the Arctic. The discussion from this webinar will form the basis for recommendations reflected in the ASM3 final report.

Indigenous Peoples' Participation in the ASM3 Process—Contributions to Arctic Science and Research.

03 December 2020, 17:00 UTC
